TITLE OF INVENTION: RECORDING CLOCK GENERATION APPARATUS

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	09/28/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or <u>Fax</u> (571)-273-2885

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where m

opropriate. All further idicated unless correcte naintenance fee notifica	ed below or directed oth	ng the Patent, advance on nerwise in Block 1, by (a	rders and notification a) specifying a new co	of m orresp	pondence address; a	ll be r ind/or	nailed to the current (b) indicating a separ	correspondence address as rate "FEE ADDRESS" for
CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)				Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, mus have its own certificate of mailing or transmission.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 628 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 628 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 (571)-272-4200.

EXAMINER'S AMENDMENT

- An Examiner's Amendment to the record appears below.
 Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R.
 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.
- 2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey Filipek on 12/22/08.

In the Abstract filed on 8/29/2008, line 4 is moved to line 3 as one paragraph instead of two separate paragraphs.

Claims 1, 2, and 7 have been amended as follows:

Claim 1. (Currently Amended) A recording clock generation apparatus for generating a recording clock to be used when performing recording on plural recording media based on different DVD+RW/+R and DVD-R/RW standards of frequencies at recording, using the same recorder, said apparatus comprising: a frequency conversion circuit for converting an inputted 32T-cycle binarized wobble signal based on a DVD+RW/+R standard into a 186T-cycle binarized wobble signal based on a DVD- R/RW standard; a selector for selecting, as a selected 186T-cycle binarized wobble signal, either the converted 186T-cycle binarized wobble signal that is outputted from the frequency

Art Unit: 2627

conversion circuit or the inputted or an inputted 186T-cycle binarized wobble signal, and outputting the selected 186T-cycle binarized wobble signal; and a PLL circuit for 186-multiplying the frequency of the selected 186T-cycle binarized wobble signal of outputted from the selector <u>for generating said recording</u> clock.

Claim 2. (Currently Amended) A recording clock generation apparatus for generating a recording clock to be used when performing recording on plural recording media based on different DVD+RW/+R and DVD-R/RW standards of frequencies at recording, using the same recorder, said apparatus comprising: a frequency conversion circuit for converting an inputted 186Tcycle binarized wobble signal based on a DVD-R/RW standard into a 32T-cycle binarized wobble signal based on a DVD+RW/+R standard; a selector for selecting, as a selected 32T-cycle binarized wobble signal, either the converted 32T-cycle binarized wobble signal that is outputted from the frequency conversion circuit or an inputted 32T-cycle binarized wobble signal, and outputting the selected 32T-cycle binarized wobble .signal; and a PLL circuit for 32-multiplying the frequency of the selected 32T-cycle binarized wobble signal of outputted from the selector for generating said recording clock.

Art Unit: 2627

Claim 7. (Currently Amended) A recording clock generation apparatus for generating a recording clock to be used when performing recording on plural recording media based on different DVD+RW/+R and DVD-R/RW standards of frequencies at recording, using the same recorder, said apparatus comprising: a frequency conversion circuit for converting an inputted first cycle binarized wobble signal based on a first optical disc standard into a second cycle binarized wobble signal based on a second optical disc standard; a selector for selecting, as a selected second cycle binarized wobble signal, either the second cycle binarized wobble signal that is outputted from the frequency conversion circuit or an inputted second cycle binarized wobble signal, and outputting the selected second cycle binarized wobble .signal; and a PLL circuit for multiplying the frequency of the selected second cycle binarized wobble signal outputted from the selector to change its cycle from the wobble cycle to the cycle of the recording clock.

Art Unit: 2627

Allowable Subject Matter

3. Claims 1-7 are allowable over prior art.

4. The following is an Examiner's statement of reasons for the indication of allowable subject matter based on Amendment filed on August 29, 2008:

As in claim 1, the prior art of record fails to teach or fairly suggest a recording clock generation apparatus having the following features:

- (a) a frequency conversion circuit for converting an inputted 32T-cycle binarized wobble signal based on a DVD+RW/+R standard into a 186T-cycle binarized wobble signal based on a DVD- R/RW standard;
- (b) a selector for selecting, as a selected 186T-cycle binarized wobble signal, either the converted 186T-cycle binarized wobble signal that is outputted from the frequency conversion circuit or an inputted 186T-cycle binarized wobble signal, and outputting the selected 186T-cycle binarized wobble signal; and
- (c) a PLL circuit for 186-multiplying the frequency of the selected 186T-cycle binarized wobble signal of outputted from the selector.

As in claim 2, the prior art of record fails to teach or

Art Unit: 2627

fairly suggest a recording clock generation apparatus having the following features:

- (a) a frequency conversion circuit for converting an inputted 186T-cycle binarized wobble signal based on a DVD-R/RW standard into a 32T-cycle binarized wobble signal based on a DVD+RW/+R standard;
- (b) a selector for selecting, as a selected 32T-cycle binarized wobble signal, either the converted 32T-cycle binarized wobble signal that is outputted from the frequency conversion circuit or an inputted 32T-cycle binarized wobble signal, and outputting the selected 32T-cycle binarized wobble signal; and
- (c) a PLL circuit for 32-multiplying the frequency of the selected 32T-cycle binarized wobble signal outputted from the selector.

As in claim 7, the prior art of record fails to teach or fairly suggest a recording clock generation apparatus having the following features:

- (a) a frequency conversion circuit for converting an inputted first cycle binarized wobble signal based on a first optical disc standard into a second cycle binarized wobble signal based on a second optical disc standard;
 - (b) a selector for selecting, as a selected second cycle

Art Unit: 2627

binarized wobble signal, either the second cycle binarized wobble signal that is outputted from the frequency conversion circuit or an inputted second cycle binarized wobble signal, and outputting the selected second cycle binarized wobble signal; and

(c) a PLL circuit for multiplying the frequency of the selected second cycle binarized wobble signal outputted from the selector to change its cycle from the wobble cycle to the cycle of the recording clock.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2627

6. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Kim CHU whose telephone number is (571) 272-7585 between 9:30 am to 6:00 pm, Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa Nguyen, can be reached on (571) 272-7579.

The fax number for the organization where this application or proceeding is assigned is (571) 273-8300

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished application is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9191 (toll free).
